

Hello! I'm Katlyn Richardson. I am a third year double major in Pop Culture and History. I have a condition called Idiopathic Intracranial Hypertension and I also have an unspecified learning disability. I am a current member of the ambassador program and I am part of the Students' Historical Society as the Communications Coordinator. In my role as the Communications Coordinator, the need for communication has been proven to be so vital to allow others to be aware of issues or ideas we have. I am a firm believer in being able to communicate issues to those who can help. This is why I have decided to run for the position to represent students with disabilities.

As your representative, I will make myself available for concerns to be addressed and heard. I understand the need for representation so I will be that voice for you. I will be someone who is active in helping students as much as I can within my power and abilities. I am a proven leader and plan to use this in all aspects of my actions if, I am voted into this position by the student body. I will use my strengths to do everything to better this institution.

As your candidate, I will be your voice when you feel you are not being heard. I will make sure we are represented and supported in this university and will always be open to hear your concerns even if you feel your concern is small. I will listen and represent you!
