

Jermain Mckenzie

I believe that the best life to live is one in service to others. I have been a very strong advocate for students over the last two years. I have repeatedly called on the government to direct greater funding towards post-secondary. I have been pushing faculty to adopt open access textbooks. I have pushed for and gotten approval for the doubling of the funding for clubs to host events and for students to attend conferences. I have tried to help students save money through the URSU/Library partnership. I have fearlessly stood up for students' rights on the committees where I act as the student representative. However, there is still a lot of work to be done.

I want to continue advocating on your behalf and to ensure that your students' union works hard to represent you. I want to continue my drive get more open access textbooks and prevent students from paying exorbitant amount for textbooks. I want to ensure that there is adequate funding in our emergency bursary funds for vulnerable students. These are just a few of the things I hope to accomplish as your VP of Student Affairs. I look forward to sharing greater details about my platform during the campaign, but more importantly I look forward to hearing from you about how I can serve you better.
