

My name is Basmah Almosallem (She/her), I'm running for VP External Affairs at the University of Regina Students' Union. As the VP External of Muslim Student Association, and a passionate volunteer with several non-profit organizations in Regina, I believe I have gained the skills and experience that qualify me for this position.

My goals as Vice President External Affairs are working toward:

- Organizing Anti-Islamophobia and Anti-Asian racism, 94 Calls to Action campaigns through URSU, student groups and dedicated community members.
- Negotiating with the University to provide more prayer and mindfulness spaces for all students.
- Building a strong community-based volunteer program that provides peer-to-peer experience for all students around the URSU community.
- Building a sustainable campus with the support of local organizations/donors to support the food security of fellow students.
