

My name is Nadiya Ekhteraeetoussi. I am a student pursuing a Re-degree master in educational leadership. Since 2008, I have worked as an Educational Supervisor, Educational Manager, School Administrator, Teacher's Trainer, and Teacher. I currently work at the University of Regina as a Technical Assistant and Teacher Assistant. In my native country, I used to be an executive committee member for conferences and congresses. I have also participated in several volunteer activities as a member of linguistic and training organizations.

As an international student, I have decided to run in the election to represent both foreign and domestic students. I would like to be a part of a larger community, and I would like to collaborate more with URSU. Interacting with individuals from all over the world who have different brains, cultures, and religious views is also a new and challenging experience.

Systematic adjustments for the education department and pupils are one of the ways I would like to see implemented. With a high number of students enrolled in undergraduate and postgraduate, the education faculty makes up a substantial component of the University of Regina. I would also like to show that there are no differences between foreign and local students. We all have the opportunity to work together on university and community issues. Here, there is no discrimination. There must be several more comparable flaws, problems, or conflicts that we must resolve or resolve jointly. Then I am hoping I will be able to do it effectively.

Thank you

Nadiya Ekhteraeetoussi
